6 1/4"	159.00	CDBE6.14
8"	217.00	CDBE8.0

All of our core bits are extendable so you can make any of our bits go to any length without the added cost usually associated with a longer core bit, plus the fact we know how to put them together and take apart. Our competition has not figured this out yet. So far we have customers who have made 100' long core bits.
