14"	1245.00	14-315ncb	780.00	14-315rcb

Manufactured in Omaha. Segments are 1" normally 1 ½" space. Also we have added more segments. With our Premium 'lock on' segment you have diamonds all the way to bottom of segment.

NO 'Backer Pads' here. Since we have no backer pad, your getting a core bit that will yield more holes.

If you want a higher diamond concentration we can just upcharge you the difference in cost of segments. Higher concentrations give you faster cutting when steel is the problem. When you have issues, we have SOLUTIONS. Problems to us is a way to show you we can handle any problem you may encounter.

Turnaround time on rebuilding core bits is usually 24 hours.
