	List	Item #
12" x 475 x 125 x 1/20	81.00	esa1221
14" x 475 x 125 x 1/20	99.00	esa1421
14" x 555 x 125 x 1/20	109.00	esa1431
16" x 475 x 125 x 1/20	176.00	esa1621

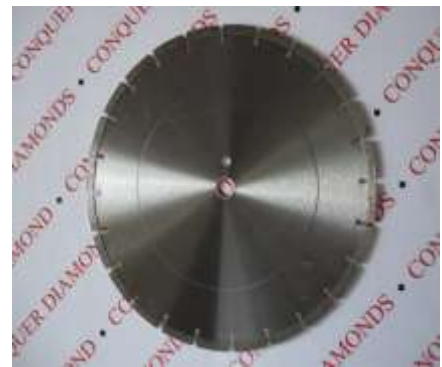

Cuts brick, block, cured concrete, bluestone limestone roof tile, asphalt, green concrete. It is used for about anything other than a bundle of rebar. *At right you see 2 blades. What we are showing here is the vast difference there is between our products and other big name brands. Our blade is on the top, you can see how much more diamond concentration we offer. A "New" segment height has been added at right >>>>>>>555>>>>>>>*  
Part # and price of blade at right is above.

Price Lowered	List	Item #
12" x 395 x 125 x 1	53.00	esae1221
14" x 395 x 125 x 1	58.00	esae1421

An alternative to abrasive blades and a lot safer. Great value for the price... it will amaze you! Cuts the same aggregate as above blade, just shorter segment.

Always remember that a "Sintered" blade will never give you the footage that a "Laser Welded" blade will. The process that is used in sintering is completely different than Laser Welded segments.
