**NO BACKER PADS IN OUR DIAMOND BLADES OR CORE BITS.**

## 2 45\* BLADES OR 3

8" X .395 X .790 X 1	534.00	45*8 1/2X2
12" X .395 X .790 X 1	824.00	45*12 1/2X2
14" X .395 X .790 X 1	871.00	45*14 1/2X2

Prices are for 1 blade, so you will need two to make it work. 2 blades put together to cut a 45 degree or 3 blades put together to cut and chamfer the cut and cut it at the same time. Used on Runways where getting enough tar into joints is a huge problem.

Trying to show another view when the two blades are put together. Above photo is when you put 3 blades together.

This product proves that we will go to any length to help you save money over our competition.
