Sintered Turbo

Part # ZIP14

14" x 600 x 142 x 1/20 **108.00**

This blade will perform far above what you would expect. Our new sintered Turbo is a great value. Cuts block with ease, cured concrete, pavers, brick, pre-stressed, bluestone roof tile. Our Sintered is a very safe blade. Picture below is showing a dime on segment. Over 1/2" high segment here. Not much competition out there against this blade, price or performance.

We believe we have the best Sintered blades on the market today. Our ESA series has proven this over the years! Don't miss the fact that this blade is not .125 wide, but is .142. Think on this! This blade does not wobble on saws that run too many RPM's!

4"x.520x.095x7/8-5/8	11.00	ZIP4
4.5"x.520x.095x7/8-5/8	12.00	ZIP4.5
5"x.520x.095x7/8-5/8	15.00	ZIP5
